

HITE, HEGELE GIVE SENIOR TEAM EDGE

Men Win too Many Firsts for Other Classes Although Juniors Throw Scare Into Camp of Upper-Classmen; Heavy Track Hinders Speed

Senior classmen carried off high honors in the annual inter-class track meet held in the high school field yesterday afternoon by scoring 52 points, while the Juniors ran a second with a total of 46 points. Sophomores and Freshmen classes followed for third and fourth with a total of 31-1-2 each.

Probably the reason for the seniors having the edge was due to the fact that more letter men are in this class and they garnered first place positions while the Juniors took but four firsts.

The track was slow due to heavy rainfall and this probably had a great deal to do with slow times being recorded. The seniors, too, played a part in cutting down the speed dashes time.

Hegale and White were the big runners who helped push the seniors ahead to grab the six inch margin of victory.

Following are the results of the track events:

100 YARD DASH
Won by Freddie Smith, junior; second, G. Rader, senior; third, Weiler, senior, fifth. Time 20 seconds.

220 YARD DASH
Won by Freddie Smith, junior; second, G. Rader, senior; third, Weiler, senior, fifth. Time 26 seconds.

440 YARD DASH
Won by Trux, senior; Skaggs, sophomore; second, Osborne, sophomore; third, Jenkins, fourth. Time 1:10.

550 YARD RUN
Won by Shadley, sophomore; second, G. Rader, senior; third, McCune, junior; fourth, G. Rader, senior. Time 2 minutes, 24 seconds.

MILE RUN
Won by Skaggs, junior; Eitel, sophomore; second, Foreman, sophomore; third, Smith, freshman; fourth, G. Rader, senior. Time 5 minutes, 36 seconds.

100 YARD HIGH HURDLES
Won by Hegale, senior; Griffith, sophomore.

Daily Drama

The heroes—Carl Hubbell, Giants, who fanned 13 men in whitewashing Boston, 1 to 0, and Jimmy Fox, Athletics, who hit two homers against Washington.

The rogues—Harry Davis, Detroit, who made two costly errors as the Tigers lost to Cleveland, 3 to 1.

The plagues—Don White, Hanley's team, who pitched a no-hitter in three games while Loring Evans, bowling only two frays scored 92 and 150.

Carl Mason with 290 was best for the Mader team.

Warden believes pen fire-proof

COLUMBUS, April 21.—Ohio Penitentiary has been made "practically fireproof," Warden Preston E. Thomas declared today, the third anniversary of the holocaust that claimed 322 lives.

He believes there is no chance of a repetition of the Easter Monday conflagration of April 21, 1930, which proved to be one of the most shocking tragedies in the nation's penal history.

There's one good thing about great disasters. They cure us of the foolish faiths that caused them.

Vandals are people who rob an ancient grave before archaeologists get around to it.

Managers Lew Fonseca and Al Simmons starred as the White Sox nosed out the Browns, 5 to 4. Fonseca drove in the winning run in the ninth, a few minutes after Simmons completed an unassisted double play by spearing Ferrell's short liner and running to second base to double Melillo, who had rounded third. Simmons also took the lead in the American league batting race.

The Phillies clubbed four Brooklyn pitchers for 13 hits and won in a romp, 14 to 2, with Elliott and Pearce limiting the Dodgers to 4 blows.

HURLERS SHOW GREAT ABILITY IN LOOP TILTS

Dozen Clubs Average Seven Hits All Games Played Thursday

NEW YORK, April 21.—From early indications, 1933 is to be a great year for Major league pitchers. Low-hit games have been the rule, even with the weather wet and cold, and the pitching should improve when hot weather sets in. In ten days, Lou Gehrig and Jimmy Fox were the only players able to hit more than one home run.

The dozen clubs that played yesterday averaged but seven hits apiece. There were four four-hit games.

"Iron Man" Carl Hubbell, who has worked in all three of New York's games, pitched the Giants to a 1 to 0 shutout over Fred Frankhouse of the Braves, yielding but four hits. The star southpaw fanned 13 men, winding up the game by striking out three sluggers—Schulmerich, Berger and Hogan. A triple by Davis and a single by Critz accounted for the only run.

The once mighty Athletics are in the American League cellar but they won't stay there long with Lefty Grove and Jimmy Fox on the job. Grove, who has registered the Mackmen's only triumphs with two wins over Washington, beat the Senators 3 to 1, limiting them to four hits. Fox, the home run king of the majors, drove in five runs with a single and his first and second circuit clouts of the year.

Day Dean of the St. Louis Cardinals dropped his second decision of the year to the Cubs, 3 to 1. Pat Malone was the winning hurler and Babe Herman drove in two runs.

Clint Brawn of Cleveland, turning in his second win of the campaign, won a keen duel from Vic Sorrell of Detroit, 3 to 1, as the Tigers' defense cracked Cleveland collected five hits and Detroit four.

Manager Lew Fonseca and Al Simmons starred as the White Sox nosed out the Browns, 5 to 4. Fonseca drove in the winning run in the ninth, a few minutes after Simmons completed an unassisted double play by spearing Ferrell's short liner and running to second base to double Melillo, who had rounded third. Simmons also took the lead in the American league batting race.

The Phillies clubbed four Brooklyn pitchers for 13 hits and won in a romp, 14 to 2, with Elliott and Pearce limiting the Dodgers to 4 blows.

MACON, NAVY'S FACTOR YOUTH

(Continued From Page One)

horsepower motors broke out with a roar and the Macon was off on her maiden trip. Just 18 months ago the first of the navy's \$8,000,000 order of airships, the ill-fated Akron, took off under the same conditions.

OVER LAKE ERIE

Dresel sent the Macon up twelve hundred feet and nosed her into the east wind. By now the wind had switched to the northeast and the Macon drifted off over the airport to the southeast.

She soared out of sight and had been gone for fifteen minutes when she again hove into view of the Zeppelin dock, this time heading due north. Evidently Commander Dresel was carrying out his intention of making a bee line for Cleveland and putting out over Lake Erie for most of his maneuvers the first day.

CLEVELAND, April 21.—The populace of northern Ohio craned necks skyward today as the U. S. navy staged a one-actor show with its new airship, the U. S. Macon, sailing majestically thru the blue, sunny skies on its maiden voyage.

Flying at a comparatively low altitude, the sister ship of the ill-fated U. S. S. Akron, cruised easily through the heavens. It appeared over Cleveland, later over Lorain, turned southward for a brief inland excursion from Lake Erie and then headed back over the lake, at Avon, village. Many other cities also reported progress of the flight.

FORGET DUTIES

Everywhere, workers, housewives and even the police forgot their mundane duties for a time to run to windows or the out-of-doors to gaze at the giant air-dreadnaught. Interest was increased as it was recalled that the Akron, a ship of almost identical construction, plunged into the sea off the New Jersey coast.

Although no specific announcement has been made, the navy seemed intent upon showing its new air monster to as many people as possible.

BAND TO BEXLEY

The Circleville high school band will go to Bexley this evening to practice with other bands for the high school band festival to be held within the next two weeks. Wilbur Crist, of Capital University, will be in charge of the practice this evening.

ACTRESS IS BROKE

LOS ANGELES, April 21.—Blanche Sweet, a leading star in the days of silent movies, is broke. Her petition in voluntary bankruptcy listed liabilities of \$13,819, and assets of \$200.

MACON, NAVY'S FACTOR YOUTH

(Continued From Page One)

last night for his son's release, but refused to say whether all or part of the \$50,000 ransom demanded had been paid. Police, however, were convinced that a portion of the ransom demand had been met. Together with several Capone gangsters whom he had enlisted to act as his emissaries Factor left his hotel headquarters last night in an automobile, apparently to make the final payment. The gangland "detectives" were led by Hunt, and Murray Humphreys, titular head of the Capone syndicate.

Police said Factor had evidently received a secret communication from the kidnapers.

EYES TAPED SHUT

Young Factor rode to his mother's home in a taxicab. Reluctantly he divulged that his abductors had driven him to a location near the apartment house and put him out of their automobile with a warning not to remove the tape from his eyes until they had departed.

The youth telephoned his father's hotel suite and talked with William Blett, Factor's business associate.

"You can expect your father at the house any minute now," Blett said.

Captain Daniel Gilbert of the state's attorney's staff hurried to the Marcus home to question the youth.

Ten suspects were in custody when young Factor returned home. Six of these were believed by police to be members of a northern Illinois kidnaping ring. Four of the prisoners were taken in custody by federal secret service agents yesterday when they raided a Chicago apartment.

Release of the young student followed a day of rapid-fire developments in which United States secret service men made a swift raid on a south side apartment and seized four men for questioning.

The raid was ordered on information which was kept a closely guarded secret.

QUESTION SUSPECTS

The four prisoners, Michael McGovern, Thomas Osborn, John O'Neill and James Martin, were hurried to the detective bureau where they were questioned for several hours.

While Factor was negotiation for payment of the ransom detectives ceaselessly questioned the four prisoners and three other suspects arrested Tuesday on information furnished by six members of the Al Capone gang who were acting as paid emissaries of Factor. The three men are Archie Brown, Ted Patterson and Edward Strauss.

You can judge the merit of any political system by the amount of lying the bosses find necessary.

'MONEY BILL'

(Continued From Page One)

government bonds. When too much money was in circulation, the president merely would retire the greenbacks or issue new bonds to meet current obligations.

This power to expand or contract the currency in circulation would give the president a control over commodity prices. His economic advisers declared he virtually would be able to fix commodity prices at any level he desired and then to stabilize them at that level. If prices sky-rocketed, so the cost of living increased violently, he would have the power to order a deflation of the currency to restore a lower level.

'NEW WEAPON'

The bill would give Mr. Roosevelt a tremendous weapon to use in the forthcoming economic conference. With Premier MacDonald of Great Britain, landing in New York, for instance, the bill would enable Mr. Roosevelt to negotiate an Anglo-American agreement for stabilizing the exchange rate between the American dollar and British pound. It would apply as well to other currencies and to agreements for stabilizing the ratio between gold and silver throughout the world.

The weapon would be authority to accept silver payments on war debts, up to a total of \$100,000,000 at "not to exceed 50 cents an ounce for silver," and to reduce the gold content of the American dollar.

The British government, for instance, would be far more able to meet its war debt payments, if part were paid in silver and the rest in a depreciated gold dollar. The debt would be slashed to the extent that silver were accepted and the gold dollar reduced.

There was a specific clause in the bill, relating to international agreements for establishing a "ratio between gold and silver." The president would have authority to fix value of the gold dollar at whatever ratio might be adopted. This, in itself, would terminate the raids on American commerce and reopen lost world markets to American goods.

A group of Republican Senate conservatives planned to fight the bill. They agreed with Senator Reed (R) of Pennsylvania, that the measure was "unsound" and would cause suffering among bank savers. They expected the wage-earners and people with bill to pass, however, in view of the overwhelming and loyal Democratic majorities in House and Senate.

EARLY APPROVAL OF PRESIDENT'S MONEY BILL SEEN TODAY AS LEADERS NAME ADVANTAGES

NAMED "RIDER"

Enactment Expected by Saturday Night; Gives Roosevelt Power
IS IMPORTANT MOVE
Six Points Listed Which Measure Can Do

WASHINGTON, April 21.—Prompt congressional approval of an emergency "money bill," empowering President Roosevelt to invoke inflation as a weapon in the war of international currencies, was predicted today by administration leaders.

The bill, offered in the senate as an amendment to the pending farm relief measure, was taken up by the senate banking and currency committee at a secret session.

Administration leaders hoped to enact the farm bill, with the currency "rider" by Saturday night. The measure then must go back to the House for acceptance of Senate amendments and the currency "rider."

SEE TURN IN TIDE
Advocates of the inflationary program predicted its adoption by Congress would turn the economic tide toward the restoration of prosperity. They called it the most important economic measure to be sent Congress in a half century.

- Its advocates declared it would:
1. Give the president control of American currency, while stripping Wall street and the federal reserve system of its long-used power to expand and deflate the currency.
 2. Stabilize farm prices at a living level while barring exportation of surplus crops.
 3. Force Europe to enter agreements for stabilization of foreign exchanges.
 4. Slash the cost of war debt payments by European debtors, if they agreed to further disarmament.
 5. Effectively terminate the raids on American markets by foreign nations producing commodities under depreciated currencies.
 6. Open to American commerce the world markets long closed by depreciated currencies abroad.

The bill actually would authorize the president to issue \$3,000,000,000 in United States notes for the payment of maturing federal obligations or the purchase of United States obligations; reduce the gold content of the American dollar by "not to exceed 50 per cent" and accept \$100,000,000 in silver as payment on the war debts, at "not more than 50 cents an ounce."

ALLOWS WIDE POWER
The president would attain absolute control of American currency through a provision, calling for agreements by the federal reserve board and its member banks to purchase or sell \$3,000,000,000 of government securities anytime the treasury requested, if the banks refused to carry out this function according to his wishes, then the treasury would do so, using the greenbacks to retire (Continued from Page Two)

5,000 BOY SCOUTS GATHERING TODAY

COLUMBUS, April 21.—The varied phases of Boy Scout work will be demonstrated at the Ohio State fairgrounds for the next two days when 5,000 scouts representing nine counties in Central Ohio participate in the 12th annual Boy Scout circus.

A concert by high school bands of Balderside, Delaware, Marysville, Bremen and Greenfield will open the 18-event program to-night.

Attorney General John W. Bricker will preside when 1,000 new scouts are invested in the tenderfoot rank during the court of honor.

LANCASTER ROAD CLOSED FOR WORK

Automobile drivers going to Lancaster and points east should observe care on a detour on State Route 22.

The road between Amanda and this city has been closed for widening of the highway. Traffic is being routed past the Amanda-twp cemetery and into the Plainview filling station cross roads. The detour has several one-way bridges and necessitates careful driving.

One good road which could be traveled to Lancaster would be Route 188, known as the Cedar Hill-pk.

Scenes of Wild Trading as Grains Advance

The famous Chicago Wheat pit as the camera saw it during the height of wild trading Thursday as prices of grain rose. It is a long time since a scene like this has been witnessed on the grain mart.

Rail Stock Boom Features Market

NEW YORK, April 21.—A boom in railroad stocks and bonds with a sharp rally in the depressed government and other high grade bonds today marked the third day of the stock market's inflation rise.

The dollar showed a stronger tone, though weakening further against sterling, which spurted 7 cents to \$3.90 1-2, the franc and guildler, it rallied against other currencies.

Huge buying orders again marked the opening and these were concentrated in the rails. N. Y. Central was the feature with

an overnight jump of 4 points to 25 on 25,000 shares. Other blocks ran 15,000 in Pennsylvania. The high speed ticker was swamped again and quickly fell eight minutes behind.

Commodities continued strong but here the buying fever seemed to have temporarily spent itself and the fluctuations were relatively small. Comparing with the wild rise of the last two days.

Stocks which had set the pace for the uprush in the last two days such as the steels, utilities and mining shares met further heavy profit-taking and were down from 1 to 3 points.

Oil stocks continued to meet persistent buying and were the only group to extend their rise. Gains ran to more than \$1 a share with Standard Oil of California setting the pace.

Spectacular gains were the rules in railroad bonds. Erie issues jumped 5 points or \$50 per \$1,000 bond while big gains were scattered throughout the list. Government issues recovered about a point or \$10 per \$1,000 bond in short order following the administration's plans to support the government bond list through resumption of open market purchase by the reserve system.

Trading was still at a furious pace but far slower than yesterday. Turnover was 1,150,000 shares for the first half against 1,750,000 shares in the same period yesterday.

OFFICIAL TO FIGHT CHARGE

Norman McLean, Fayette-co Prosecutor, Goes About
About Work as Usual

WASHINGTON C. H., April 20.—Promising that he would fight the charges preferred against him which seek his removal as prosecuting attorney of Fayette-co, Norman L. McLean today continued his work as the prosecuting attorney, making no further comment on the action.

Charges were filed earlier in the week by W. S. Paxson, attorney for complainants, who asserted that McLean was guilty of wanton, willful neglect of duty and gross misconduct in office, because of his failure to indict Mal S. Daugherty on charges growing out of the Ohio State Bank which closed its doors May 12, 1930.

McLean was evidently ignorant of the charges filed against him until he read an account of the proceedings in a local newspaper, and was not served with a copy of the complaint until Thursday noon.

Complainants in bringing the charges against McLean are J. H. Cheaut, P. J. Burke, Lawson Crose, A. L. McDonald, Mrs. J. H. Chenaull and Elmer Hays.

Hearing of the charges will be held before Common Pleas Judge H. M. Rankin on May 15.

SHAREHOLDERS OF INDUSTRIAL CORP. TO MEET MONDAY

Shareholders of the Circleville Industrial Company, Inc., will meet Monday at 4 p. m. in the Chamber of Commerce rooms for election of directors and to transact other business.

MAC DONALD HERE

NEW YORK, April 21.—The S. S. Berengaria, with Prime Minister Ramsay MacDonald of Great Britain aboard, arrived off Ambrose lightship at 9:20 a. m. today. The Macon, the city's official welcome boat, was to take MacDonald and his party from the liner to Jersey City where the premier will board a special train for Washington, where he will confer with President Roosevelt.

MRS. HARRY SINES, DIES IN COLUMBUS

Funeral services will be Saturday at 2:30 p. m. at the Robtown U. B. church for Mrs. Harry Sines, aged 42, who died Thursday at the home of her sister, Mrs. James Clemons, 1801 Richmond-rd., Columbus.

The body was taken to the home of her mother, Mrs. William Dewey, near Robtown.

Besides her mother, Mrs. Sines is also survived by her husband, Harry Sines; four daughters, Mrs. Dan Huffer, Gladys, Mildred and Phyllis Sines; four sons, Nolan, Paul, Billy and Carroll; four sisters, two brothers and two half-brothers.

Interment will be Darbyville cemetery.

ROTARIANS HEAR CHINA DISCUSSED

Merle Hooper, of the Floating Corporation, (Cleveland) gave an interesting talk before the Rotary club Thursday noon being as his subject "China-Past, Present and Future."

He dealt with this nation from its beginning during conditions habits and the mode of living there.

The Men's Social Club of the First Methodist church will meet next Tuesday for the first regular meeting under the new organization.

Dr. G. D. Phillips will preside and a program will be rendered. Ladies of the church will serve a supper at 6:30 p. m.

OHIO PROGRAM HANGING FIRE

White's 10-Points Plan Presented to National Relief Group

COLUMBUS, April 21.—The eyes of the state were turned toward Washington today where a far-reaching ten-point public works program for Ohio, involving an estimated expenditure of \$13,000,000, is hanging fire on the administration's national public works relief plans.

The Ohio program was spread out before government officials yesterday by Adjutant General Frank D. Henderson who stressed the point that the state is prepared to start work immediately upon the assurance of financial backing for the projects.

PROGRAM OUTLINED

Prepared by Governor George White's committee on unemployment relief, the Ohio program includes the following projects:

Flood control and water conservation; harbor improvements, shoreline protection and river works; reforestation; bridge street and road construction; national guard improvements; municipal and state airport construction and development; county sanitation construction and sewage disposal projects; waterworks developments and construction; intrastate reallocation of population and public welfare constructions.

Plans were also submitted by Henderson on 25 sanitation projects involving expenditures of \$3,500,000. Details of these projects were laid before engineers of the federal Reconstruction Finance Corporation.

At present, federal health officials are working on plans for a rural sanitation program in Hocking-co as an experiment which, should it prove to be a feasible project, may be extended to other sections of the state.

"MYSTERY" CLEARED AS BODY OF CALF IS SEEN IN CREEK

The "deep mystery" of a woman drowned in Deer Creek was solved today when a Ross-co man informed Sheriff Joe Vincent that he saw the body of a red calf in the stream while he stood on the bridge near Andersonville last week.

He saw the body shortly after Charles Hall, also of Ross-co, reported he saw what he thought was the body of a woman.

Ross-co authorities still face the mystery of the disappearance of Miss Grace Nicely, 36, who left the home of her husband with a hired hand two weeks ago. It was thought that the "body" Hall saw might have been that of Mrs. Nicely.

A number of notables of the degree of Pocahontas, auxiliary of the Improved Order of Red Men are expected to meet here this evening with members of Scippo Tribe No. 28.

Matthias L. Senterfield, of Columbus past great Pocahontas and new chairman of the great finance committee, will be among the visitors. Plans for state convention to be held here June 11, 12 and 13 will be made.

NOTABLES EXPECTED

FACTOR YOUTH GIVEN LIBERTY BY ABDUCTORS

Appears at Home of Mother Early Friday; Missing Nine Days

GANGSTERS AID
Police Study Activities of Capone Band

BULLETIN
CHICAGO, April 21.—With his kidnaped son, Jerome, returned home safe, John "Jake the Barber" Factor, millionaire stock promoter, demanded vengeance today with the promise that he will "see this thing through to the finish."

Although vowing that he had not paid a cent of the \$50,000 demanded by the kidnaping gang, Factor vehemently stated:

"I will bring my son's abductors to justice."

CHICAGO, April 21.—Jerome Factor, 19-year-old university student who was kidnaped nine days ago and held for \$50,000 ransom, was released by his abductors early today, apparently unharmed.

Unshaven and apparently dazed after his period of captivity, the son of John "Jake the Barber" Factor, millionaire stock promoter, appeared at 2:30 a. m. at the apartment of his mother, Mrs. Leonard Marcus.

Police began an immediate investigation on the part of the gang of Al Capone played in the negotiations. Detectives took into custody Sam "Golf Bag" Hunt, Capone syndicate leader enlisted by Factor in the search. Hunt invented the mode of carrying a golf bag.

It was in the vestibule of his mother's North-side apartment house that the youth was seized a week ago Wednesday.

YOUTH EXHAUSTED

The youth appeared exhausted and his mother hastily summoned a physician. A heavy growth of beard covered young Factor's face and his features bore the marks of adhesive tape with which his eyes had been bandaged during the whole period of his captivity.

"Jake" Factor, who is accused of swindling British investors of \$7,000,000, completed negotiations (Continued on Page Two)

ALIENISTS ASSAIL MRS. JUDD'S PLEA

FLORENCE, Ariz., April 21.—Winnie Ruth Judd, saved from hanging at dawn today by a timely reprieve, may know by tomorrow night whether the reprieve was in vain.

The sanity trial on which her fate depends was speeding to a close today before a jury of 12 men. The "trunk" slayer is now under sentence to die next Friday for the murder of Agnes Anne Lerio. The bodies of Mrs. Lerio and Hedvig Samuelson were cut up and shipped in trunks from Phoenix to Los Angeles.

Four state alienists have pronounced her not only sane but asserted that she is shamming the symptoms on which defense witnesses based their opinion that she is insane.

Court News

CIVIL ACTION SET
A civil action which has been pending in the court of common pleas for ten years will be heard Monday, April 21, before Judge J. W. Adkins and the January term of jurors.

The suit involving Robert G. Peters, N. Court-st., as administrator of the estate of Martha Peters, deceased, is an accounting proceeding out of a farm lease to William Dearing of Louisville, Ky. defendant.

The interesting highlight of the trial will in all probability be that Dearing will plead his own case to the court despite the fact that he is not an accredited attorney or a member of the bar.

The action was first filed February 24, 1924 claiming \$666.73 for the plaintiff with interest from March 1, 1923. A succession of delays, however, has caused the case to be carried over to this time.

E. A. Brown will act as attorney for the plaintiffs in the case.

HOSPITAL NEWS
John Blosser, who is in Berger hospital with serious injuries received in an auto accident Sunday, was reported slightly improved Friday.

PALMER PHILLIPS
MT. STERLING P. M.
Announcement was made Friday that Postmaster General James Farley had appointed Palmer Phillips as acting postmaster of Mt. Sterling.

Relief Agencies List Applicants For "Army" Jobs

No Official Registrar Yet Named But Miss Moeller and Miss Butch File Names of Young Men Applying For Places; Specifics as Listed

Although there has been no definite action taken in appointment of a registrar in Pickaway-co to accept the enlistments of recruits for the national army of reforestation which was created by action of President Franklin Roosevelt, Miss Gretchen Moeller, secretary of the social service clearing house and Miss Agnes Butch, Red Cross secretary, have been accepting names of those seeking places in the Forest army.

According to these persons approximately 80 young men have so far applied for enlistment in the reforestation project, but insofar as the appointment of a registrar has not been made no definite action can be made at the present.

QUOTA UNKNOWN
The quota for Pickaway-co has not been known due to the fact that figures have not as yet been compiled to turn into the State Relief Commission. According to a report issued recently the quotas assigned by the State Relief Commission to each county and its political subdivisions will be allotted on the ratio that the county relief problem bears to the total (Continued from Page Two)

HOCKING-CO UNEMPLOYMENT CRISIS NARROWLY AVERTED

ATHENS, April 21.—An unemployment crisis in Hocking-co was temporarily averted today when commissioners of the county, acting under the pressure of a threatened "hunger march," juggled township funds to meet relief demands in three desperately stricken townships.

The situation was brought to a head last night when a delegation of 20 persons, headed by Joseph Judson, mayor of Jacksonville, called at the county courthouse here and delivered an ultimatum that unless their relief demands were met immediately, a "hunger march" would be started toward the county seat today by 4,000 citizens of Trimble, Waterloo and York townships.

After a conference which lasted until the early hours of this morning, the county commissioners announced that arrangements had been made to transfer relief funds from other townships in the county to the three whose monies are exhausted.

The money transferred, the county commissioners stated, would be sufficient to tide the stricken counties over for approximately two weeks. Trimble-co was given \$1,800, Waterloo, \$725 and York \$1,000.

Meantime the county commissioners began an intensive search today for new sources of relief funds to take care of the situation when the emergency funds give out. Efforts may be made, it was indicated, to bring about additional monies from the federal reconstruction finance corporation.

Assisting the county commissioners in helping solve the crucial situation today was Davison Frost, who came here last night from Columbus where he is connected with the state welfare department.

DEATH CLAIMS GAS MAGNATE

Frederick Crawford, 69, Chairman of Ohio Fuel Gas Board, is Dead

COLUMBUS, April 21.—A sudden illness today had claimed the life of Frederick Crawford, 69, chairman of the board of the Ohio Fuel Gas Co. and a prominent oil and gas operator for the last 40 years. Crawford died at his home here last night from angina pectoris.

His affiliations in the oil and gas fields extended through the world. He was a director of the Tropical Oil Co. of South America which afterwards was merged with the International Petroleum Co.

Among the many connections he had were the vice presidency of the Columbia Gas & Electric Corp. of New York, and the chairmanship of the board of the Columbia Gas & Fuel Co., Federal Gas & Fuel Co., Preston Oil Co., Northern Ohio Natural Gas Co., Edgewater Gas Co., of Toledo, Springfield Gas Co., and the Indiana Gas Distribution Co.

A native of Hamilton, Pa., Crawford had lived in Columbus since 1903.

Surviving are his widow, Elizabeth, and two daughters. Funeral arrangements are pending.

OHIO MAN MURDERS WIFE, SHOTS SELF

ZANESVILLE, April 21.—Climaxing a six-year-old estrangement, Alva Denbow, 51, today shot and killed his wife, Ada, 48, and then attempted suicide by shooting himself twice through the roof of the mouth.

The tragedy took place in the home of Mrs. Ruth Toher, a daughter of the couple, where they had been living since last fall in an effort to affect a reconciliation, it was said.

According to the daughter, Denbow and his wife had quarreled last night. The argument ended, she said, with her father leaving the house while Mrs. Denbow began packing her belongings to move away.

FRITCH PAROLED

Edward Fritch, of Columbus convicted here of burglary and larceny of the Mal Daugherty cabin along Deer Creek, will be released on parole from the Junction City brick plant by the Ohio State board of paroles on June 1.

Fritch was convicted with Mr. and Mrs. Chester Bright. Bright is now serving time and Mrs. Bright is on parole from the local court.

Paroles were granted to 32 other prisoners in the brick plant while two prisoners were released to other states and 58 cases were continued.

DAVEY ASPIRING?

COLUMBUS, April 21.—Former Congressman Martin L. Davey of Kent admitted to friends here today that he still would like to be governor.

Davey told 300 women at a Democratic rally, however, that if he decided to run for governor in 1934 he would not announce his candidacy until the end of this year.

"If I find time to leave my business, my ambition may still have a chance to assert itself," he said.

UNDERGOES OPERATION
Harley Merriman, S. Scioto-co, is reported recovering nicely after undergoing a major operation at the Cleveland Clinic. He is expected to return to his home next Wednesday.

MACON, NAVY'S NEW 'SHIP,' ON MAIDEN FLIGHT

Ill-Fated Akron's Sister Taken Off From Airport Early Friday

OVER CLEVELAND
One Hundred and Five Men on Dirigible

ZEPPELIN DOCK, AKRON
April 21.—Less than three weeks after its sister ship, the Akron, crashed into the turbulent Atlantic, the Navy dirigible U. S. S. Macon took off from Akron airport at 6 a. m., today on its initial test flight.

Exactly at sunrise the world's largest airship cast off its moorings and made a perfect take off with Commander Alger H. Dressel of New York City, giving the command "up ship."

One hundred and five men were aboard the Macon.

A strong wind was blowing from the east. As soon as the great airship had been towed out 1,200 feet north of the north dock door by its 115 ton portable mooring mast, the ground crew of 20 men swung the tail westward to put the gargantuan aircraft in line with the prevailing wind.

DAY IS ABOARD
Rear Admiral George C. Dyer and the naval board of inspection and survey boarded the craft to four of the eight powerful Maybach motors started warming up. Admiral Dyer joined Commander Dressel in the control car in the Macon was trimmed for her flight. Water ballast was dropped from the nose of the dirigible, the mooring mast was cast off and finally at 6:18 a. m., came Dressel's command:

"Up ship."

At the command all eight engines started.

(Continued on Page Two)

COMMANDER MURDERED
COLUMBUS, April 21.—The body of Commander George C. Dyer, who was killed in the crash of the Akron, was found today in the wreckage of the dirigible.

MACON MAST CREW WORKER IS HURT

AKRON, April 21.—First casualty of the Macon, naval dirigible of the navy, was reported today as the "big ship" was towed from her hangar.

J. E. Wilson, a member of the mooring mast crew, tumbled from the portable mast and sustained severe bruises on the arms and legs. He was rushed to Good Samaritan hospital where X-ray photographs were taken to ascertain whether he had incurred more serious hurts.

CANAL WINCHESTER MAN NAMED IN TWO SUITS FOR DAMAGE

LANCASTER, April 20.—Calvin W. Weiser, Canal Winchester R. F. D. 2, has been named defendant in two damage suits totalling \$30,000. Plaintiffs in the suits are Perry and Flossie Irvin, Canal Winchester R. F. D. 2 and their 8-year-old son, Perry Jr.

They ask damages for injuries suffered by Perry Jr., when struck by Weiser's car after alighting from a school bus near the Irvin home on March 3, 1933.

The boy was hurled 50 feet by Weiser's car they charge.

WHITE SECRETARY ON PAROLE BOARD

COLUMBUS, April 21.—Appointment of Carl Smith, secretary to Governor George W. White, as secretary of the state parole board was announced here today.

The appointment, which was announced by Governor White, will become effective May 1. Smith's salary will be \$3,600 a year.

Smith will be succeeded temporarily as secretary to the governor by William L. Moore, the governor's present assistant secretary.

Smith's appointment to the parole board fills a vacancy left some time ago with the departure of William Dore of Tiffin. The post has been vacant since Dore was discharged.

IN THE MARKET BASKET

FAMILY FOOD GUIDE TO LOW COST BALANCED DIET

Every meal -- milk for children, bread for all.

Every day --

Cereal in porridge or pudding.

Potatoes

Tomatoes (or oranges) for children.

A green or yellow vegetable.

A fruit or additional vegetable.

Milk for all.

Two to four times a week --

Poultry for all.

Dried beans and peas or peanuts (especially for children).

Lean meat, fish or poultry or cheese.

HOSPITALITY AT LOW COST

When Mrs. Franklin D. Roosevelt visits the Girl House in Washington next Saturday (April 22) she will be served with a three-course luncheon. The Girl Scouts themselves have prepared at a cost of about 15 cents per plate. The girls

have been "practicing up" for the occasion under guidance of the Bureau of Home Economics of the U. S. Department of Agriculture. The menu will be --

Tomato juice whole wheat crackers (homemade) ground beef broiled on toast five-minute cabbage, sponge cake with fresh strawberry sauce, coffee.

By this meal, the bureau points out, the Girl Scouts are demonstrating the possibility of a very pleasant kind of inexpensive hospitality. Simple meals, well cooked and attractively served, can always be interesting, and home entertaining doesn't necessarily have to stop with lowered incomes. This menu is substantial, palatable, and not costly. It can be purchased with in the limits set by a very modest income, and is such as might be served to guests in any home.

Or it could very well cost the family dinner. The stout represents purchases in quantity for

Back Reflation as Real Farm Aid

Louis J. Taber, Master of the National Grange, who headed the committee of the organization which called upon President Roosevelt to tell him they believe reflation of currency and credit is essential to solve the farm problem permanently. The combined effect of the farm commodity and the farm credit bill will not be sufficient to pull the farmer out of his difficulties, the committee reported.

ground beef, dot with the butter, and broil under a flame for about 5 minutes. Season with salt and pepper, and serve at once with a garnish of parsley or pickles.

Five-Minute Cabbage

2 cups milk.
2 quarts shredded cabbage.
1-2 cup top milk.
3 tablespoons flour.
3 tablespoons melted butter.
Salt.
Pepper.

Heat the milk and cook the cabbage in it for 2 minutes. Add the top milk, the blended flour and fat, and the seasonings, cook rapidly for 3 or 4 minutes, and stir constantly. The cabbage retains its crispness and is delicate in flavor and color.

Sponge Cake With Fresh Strawberry Sauce

4 eggs.
1 cup sugar.
3 tablespoons cold water.
1 cup sifted soft-white flour.
1 teaspoon baking powder.
1-4 teaspoon salt.
1-2 teaspoon vanilla.
1-2 teaspoon lemon juice.
1 quart fresh strawberries.

Separate the egg yolks from the whites, and beat the yolks well. Gradually beat in the sugar and the water, and continue the beating until the mixture is very thick and light. Sift the dry ingredients together, and fold them into the egg and sugar mixture. Then fold in the stiffly beaten whites of the eggs, add the flavoring, and bake in a slightly greased square pan in a very moderate oven (350) for 45 to 50 minutes.

Crush the strawberries, add a little salt and add sugar to taste. Mix well and allow to stand for an hour or more before serving. Serve the cake in square portions with sauce poured over each.

Simple Hygienic Living Assures a Healthy Life

The Preventive Medicines and Rules of Health Have Doubled the Average Expectation of Life in Last Fifty Years

By ROYAL S. COPELAND, M.D.
United States senator from New York
Former Commissioner of Health, New York City

Dr. Copeland

RECENTLY I attended a dinner given in the honor of a physician who had devoted fifty years of his life to the practice of medicine. For twenty-five years he practiced medicine in the City of New York and for the remaining quarter of a century he taught at one of the leading medical schools of the country. Many of his colleagues and former students attended the dinner.

He was deeply moved by the fine reception given him but nevertheless he did not overlook the opportunity to scold a little and even to criticize his medical friends. "You give advice, guide others, save many from pitfalls and ailments, but neglect your own health and lives."

Heed Nature's Warnings

This learned man said that though the average expectation of life has doubled since he became a doctor, so many persons still overlook simple rules of hygiene so essential to good health. He stressed the importance of preventive medicine and recalled that, in his youth little, if any, attention was given to the prevention of disease.

Nature has a way of sending out warnings when anything is wrong with our bodies. And what is more, she often provides marvelous ways of attempting to correct faults in this intricate mechanism called the body. But too often we neglect these signs.

Headache, nausea, "biliousness," lack of appetite, burning pain after meals, nervousness, loss of weight and insomnia, are a few signs that should never be neglected. Every day we read in the newspapers of the sudden death of a notable. He may have had persistent heartburn which the sufferer neglected and attributed to faulty eating. In reality,

the victim had heart disease but never found time to visit a doctor who could have helped him.

Learn to Keep Fit

It is only with good health and vigor that we can expect a long, happy and useful life. How much better it is to learn how to keep fit than it is to be obliged to patch up the body after some disease has attacked it. I am confident that so much attention has been given to the subject of vitamins, "miraculous foods" and other modern discoveries that too little thought is given to the importance of repeated physical examinations and visits to the doctor.

I am afraid that in this age of specialization the simple rules of hygiene are overlooked. No one will deny that vaccination against smallpox, inoculations against diphtheria and scarlet fever, the prevention of typhoid fever and the increased knowledge of other communicable diseases have made this world a safer place in which to live. But it cannot be overlooked that the so-called degenerative diseases of middle life continue to take a heavy toll.

The authorities all agree that the prevention as well as the cure of disease, lies in simple hygienic living. Bear in mind that plenty of fresh air, sunlight, moderate exercise, abundant rest and sleep, daily elimination, simple and nourishing foods are the foundation of a healthy life.

Answers to Health Queries

C. C. Q.—What causes one to feel tired all the time?

A.—This may be due to auto-intoxication. Send self-addressed stamped envelope for full particulars and repeat your question.

G. D. Q.—What do you advise for blackheads and similar blemishes? Does it harm the complexion to use a stiff complexion brush? How can pimples be eradicated without leaving a scar?

A.—For full particulars send a self-addressed stamped envelope and repeat your question. If the skin is very tender and sensitive it would not be wise to use too stiff or harsh a brush.

(Copyright, 1933, K. F. S., Inc.)

3 persons. During in larger quantities might reduce the cost. The figure of 15 cents at Washington prices, which are among the high city prices in the United States, would be less in many communities.

As to food value, this menu includes all the kinds of food necessary for health. It is simple, easily prepared and easily served, and illustrates several important principles of cookery and food economy.

The crackers are prepared from a recipe worked out for extension agents to use in communities where there was more wheat than money to buy crackers—and crackers were needed to use with the homemade peanut butter. They are equally good with tomato juice.

Ground beef is economical because it can be purchased in exactly the quantity needed, there is no waste, and when it is broiled on toast all the juice of the meat are saved. The short cooking period for the cabbage allows it to retain practically all the food values of the raw vegetable, and to this are added the food values of the milk with which the cabbage is cooked. The sponge cake is nutritious because of the eggs with which it is made, and it is economical at this season of the year when eggs are cheap. The strawberries add color and flavor as well as protective food values.

Six Girls Scouts will take part in the preparation of this luncheon. They have cooked and served it twice for practice, and next Saturday they will cook and serve it for the First Lady of the Land and other invited guests.

WHOLE-WHEAT CRACKERS

2 cups finely ground whole wheat.
1-4 teaspoons salt.
3 tablespoons solid fat.
6 tablespoons water.

Flour.

Mix the dry ingredients and cut in the fat with a biscuit cutter. Add sufficient water to make a stiff dough and shape with the hands into a smooth ball. Allow it to stand for about 10 minutes, then take a portion at a time, roll into a thin sheet on a lightly floured board, and cut into small squares or rectangles. Bake in a hot oven (400°) for about 20 minutes.

Ground Beef Broiled on Toast

1 pound ground raw beef.
8 slices bread.
Butter.
Salt and pepper to taste.

Toast the bread on one side. Butter the untoasted side, spread to the edge with a layer of the

STEAMSHIPS SLOWLY GIVE UP TO MOTORS

Crisis Facing Merchant Marine Is Increasing.

Washington.—"The Decline and Fall of American Shipping" might well be the secondary title for a volume just issued by the bureau of navigation and steamboat inspection of the Department of Commerce which traces the entire shipping industry from 1787 to 1932.

The rapid increase in sailing vessels and their decline, giving way to similar increase and decline in the number of steam vessels which are now giving way gradually to motor vessels, is a picturesque feature of the book.

Half-Million-Ton Start.

When Washington became President there were fewer than a half-million tons of merchant sailing vessels flying the American flag.

When Robert Fulton sent his Clermont flying up the Hudson by steam power in 1807 at an astounding speed which almost any boy today can duplicate on a velocipede, these half-million tons had increased to one and a quarter million. Then began in earnest the conflict between sail and steam, but sail held its own so that when the war with Mexico broke out in 1846-1847 sailing tonnage under the American flag was nearly two and a half million tons, or six times the steam total.

The clipper ship reached its proud peak in the '50s, when sailing tonnage almost reached four and a half million tons, compared to three-quarters of a million steam tons.

The sailing ship began facing its defeat in earnest as the southern states yielded at Appomattox, and from then on the supremacy of sail over steam was definitely over.

The first commercial motor vessels appeared in 1893, the Aztec, and the Richard K. Fox. There are 12,

Chicago's New Mayor Self-Made Battled Own Way to the Peak

Edward J. Kelly Quit as Apprentice Mortician to Take Pick and Shovel Job and Rose to Pinnacle of Engineering Profession.

MAYOR EDWARD J. KELLY and FAMILY

While watching workmen excavating for the 1893 World's Fair in Chicago, Edward Joseph Kelly, a young apprentice to a mortician, decided there was no future in embalming, so he threw up his job and took one with a pick and shovel. Today, he is not only at the peak of the engineering profession, but is Mayor of his native city. The man who takes up the reins dropped from the hand of Anton Cermak, Chicago's murdered executive, was born in 1876 in the city he now rules, of Irish parents. He attended public schools and night classes until he came of working age. Then he got the funeral parlor job which he left to become a ditch digger. But he wasn't long at that humble job. Using up his spare time in studying engineering at Notre Dame University, Kelly was soon on his way to the top. An idea of his progress may be gauged from the fact that for the past nine years he has been president of the South Park system of Chicago, and is also director of a \$120,000,000 sanitation district improvement project. For he has been called one of the foremost builders of modern Chicago, for he was associated with every plan for civic betterment in the Windy City these many years. Chicago's new Mayor has been twice married. His first wife, the former Mary Edmund Roche, of Chicago, died in 1918. He married Miss Margaret E. Kirk, of Kansas City, in 1922. They have three adopted children, Joseph and Patricia, twins of 6, and Stephen, 2.

000 today, but they are so small they do not increase the total tonnage.

Sailing Tonnage Drops.

When the World War began, the sailing tonnage had dropped to one and a quarter million tons, its status in 1807, with steam tonnage up to seven million tons. New ships authorized by congress during the war period doubled the steam tonnage, while sailing ships and motor vessels barely maintained their strength.

Today the merchant marine situation faces a crisis which has increased in recent years. Except for freight carrying transoceanic airships, or electrically-driven ships obtaining their current by wireless from land dynamos, modern ships see no competitor ahead offering the menace they did to the picturesque sailing vessels, but modern developments and economic conditions have brought about just as serious a situation as faced the clippers when the Clermont's wood-burning boilers flung their smoky challenge above the Hudson's palisades.

Safety first practices in raising chicks are to use litter free from mold and change it at least twice a week; to use clean mash hoppers and water fountains placed on wire platforms; and to remove the cockerels as soon as possible.

SERUM TO RESTORE PEP TO THE WEARY

Norwegian Finds a Substance to Dispel Fatigue.

Oslo.—A serum that may dispel tiredness in human beings has been discovered.

Such is the claim of a Norwegian physician, Dr. Mentz von Krogh, who has spent several years as medical professor in Argentina where he experimented for a considerable time with the problem of removing the human feeling of tiredness. His previous work of discovering a rejuvenation tonic brought him up against the problem of inventing an anti-tiredness serum.

The experiments have now reached a stage where the Norwegian scientist holds that he can bring the results before the public eye, in a lecture he explained how he first tried his serum on himself and with surprisingly promising results.

Serum Lifts Fatigue.

During his stay at an Argentine university he experimented with the serum which he calls antikenotok sine under particularly favorable conditions. After a swimming competition during which the participants had exerted themselves to the utmost the doctor injected the serum underneath the skin of the young men, and after the lapse of a couple of hours they were all freed of tiredness.

"The serum consists of the same substance," Dr. Von Krogh declared, "that the human body produces in order to expel the tiredness substances. In a young and strong individual the capacity for developing this substance in a natural way will always be greater than in older human bodies."

Will Be Tested Now.

"With very old people the serum will be of no effect, more likely proving to be harmful. Nor will it mean much to very young people, but to the intermediate stages of human life it will cause a strikingly favorable effect. On an average ten injections will be needed, and the effect will then be noticeable for a long period, often reaching several years. The injections have no harmful after-effects."

Professor Von Krogh is looked upon here as a serious and reliable medical scholar, and the results of his experiments will now be tested by the scientific authorities of Norway.

You Are One of the Plumber

There are more than 2,000,000,000 human beings on the earth, according to the 1930 estimate of the International Statistical Institute of the League of Nations at Geneva.

Innocent

Robert E. Coleman, young Atlanta, Ga., salesman, is shown as he left the Stone Wall Prison Camp after his release recently. Coleman has served four years of a life term on conviction of the murder of his wife in 1929, when James Stark, a negro, confessed the crime. On proof of the negro's guilt being produced, Governor Eugene Tamm of Georgia immediately ordered Coleman's release.

BEER FOR PARKS

NEW YORK.—Plans to sell beer in certain parks of the city of New York are being considered. The beer gardens would be operated to give work to the jobless.

Advertisements are restricted to their proper classification and to the regular circulation of the paper. The publishers reserve the right to refuse any classified advertising copy. Advertisements for irregular insertions, taken on a one-time basis, are charged at the rate of three lines. Count five average words to the line on paid advertisements. Classified ads will be received by telephone, and if paid at Circleville, Ohio office within six days from the date of insertion cash rate will be charged. Classified ads will be inserted up to 10:30 A. M. on the day of insertion. Advertisements for three or seven times and stopped before expiration will be charged for only the number of insertions actually appearing and adjustment made at the rate earned. All ads ordered seven times will be published in the Union-Herald (weekdays) and in the Circleville Herald (Sundays) and in the Union-Herald (weekdays) and in the Circleville Herald (Sundays) and in the Union-Herald (weekdays) and in the Circleville Herald (Sundays). A charge of 50 cents is made for publishing cards of thanks. Special rates for yearly advertising upon request. Careful attention given to mail orders. Rates per line for consecutive insertions: One time, 10c per line. Two times, 15c per line. Three times, 20c per line. Four times, 25c per line. Five times, 30c per line. Six times, 35c per line. TO LOSE FAT

Miss M. Kainer of Brooklyn, N. Y. writes: "Have used Kruschen for the past 4 months and have not only lost 25 pounds but feel so much better in every way. Even for people who don't care to reduce, Kruschen is wonderful to keep the system healthy. I bet a nurse should know for I've tried so many things but only Kruschen answered all my prayers." (May 12, 1933).

TO lose fat BARGAIN and HARBINGER, take a half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—don't miss a morning—a bottle that lasts 4 weeks costs but a trifle—get Kruschen Salts at any drugstore in America. If not joyfully satisfied after the first bottle—money back.

LIGHTS & SOUNDS of NEW YORK

It was when Rudolph Bischoff, now of New York's Westbury, ran the Trianon palace, at Versailles, that there arrived a short man, with a pointed, reddish beard and a head as free from hair as a large, pink pearl. Adjacent to his Roman nose, a monocle nestled in his left eye. The visitor was Gabriele d'Annunzio, Italian novelist, playwright, poet and patriot, and he said he was looking for quiet. A suite, which looked out upon the country, valued by autumn fog, satisfied him. All he wanted then was the largest writing table which could be procured, a reading lamp, a stand to hold a large bowl of water containing a solitary goldfish, a daily vase of flowers, and some light bulbs of red, green, blue and yellow.

"I like," he explained, "to change the color of my room in accordance with my moods."

After the things he requested had been provided he went to work and wrote his first play in French verse, for Ida Rubinstein, the famous Russian, whose beauty and dancing perhaps exceeded her acting and French pronunciation. The play concerned the martyrdom of St. Sebastian and Ida Rubinstein appeared in the title role, with scanty paint to protect her from the arrows. After the play was produced, d'Annunzio went somewhere in the Pyrenees. Before leaving Versailles, he commended his lonely goldfish to the care of Mrs. Bischoff, begging her to have the bowl removed to her own apartment.

But it became evident that the mind of the fish fancier was not at ease. A week after his departure, Mr. Bischoff received a telegram. It said that d'Annunzio had a presentiment that the fish was dying and asked for a report on its

Mr. Bischoff

health. Mr. Bischoff was an excellent health and spirit, and wired to that effect. Twenty minutes later he received a summons from his wife. He found her in a state of agitation, looking at a fat and motionless goldfish. There appeared to be no explanation, but the fish certainly was dead. Bischoff calmed his wife, disposed of the fish in the most convenient manner, and sent another wire containing the sad news and his condolences.

Back came another telegram from d'Annunzio. It thanked Mr. Bischoff for his sympathy and asked him to bury the goldfish in the garden. This was a tall order, as the fish was now beyond recall. Mr. Bischoff told his troubles to his head waiter, an Italian named Galvani, a large man with a sense of humor. Galvani said that all would be well. He secured a large bagging from the chef, wrapped it in cotton, put it in a box, and buried it in the garden. Above it was placed a marker, bearing the somewhat inaccurate statement that this was the resting place of the pet goldfish of Gabriele d'Annunzio. Two weeks later, d'Annunzio returned and asked to be shown the grave. He read the inscription and was satisfied.

In some ways this is reminiscent of the Manhattan man and the canary bird, to which his wife was extremely attached. When it expired of old age, she packed it in a box and insisted that her husband go out and bury it. His idea was to toss the box in a garbage can, but every time he started to carry out that idea he imagined that passers-by were viewing him with deep suspicion. He knew that their suspicion would be even deeper if they saw him trying to bury something in a vacant lot, such lots in New York resident districts being few and usually flanked by windows. So he walked out on the Queensborough bridge, started to throw the box into the East river, and was seized by

Mr. McGrath

of New York. He returned home minus the canary, but with a state of mind which lasted for a week.

When Police Inspector Matt McGrath left County Tipperary, his male parent was much prejudiced against all forms of athletics, which he described as wasteful and exhausting nonsense. But when Matt McGrath won the Olympic hammer throw and returned to visit his Irish home, the old man drew him aside. "You must know," he said, "that you take after your father's family."

A number of New York financial institutions would like to get out of the moving picture business, but are in the situation of the hunter who climbed after the bear, caught it, and besought his companion to come up and help him let go.

EUCHRE CLUB IS ENTERTAINED

Mrs. Fred Donnelly, Pinckney, at, entertained the members of her three table euchre club, Thursday evening at her home. Bringing a pleasant game to a close favors were awarded Mrs. Oscar Heffner and Mrs. Donnelly.

Mrs. George Foerst will entertain the club in two weeks at her home on N. Court-st.

PHONE EMPLOYEES SURPRISE MR. DOAN

The employees of the accounting department of the Citizens Telephone Company gave a surprise birthday party for C. H. Doan at his home on W. Franklin-st., Thursday evening.

A covered dish supper was served after which games were enjoyed by the following: Misses Ann Ryan, Erma Pyles, Susie Ryan, Blanche Valentine, Ruth Stout, Florence Schuer, Helen Jones, Dorothy Sampson, Elizabeth Roundhouse, Mrs. R. E. Armstrong, Mr. and Mrs. H. C. Swartz and daughter Jean, Mr. and Mrs. C. H. Doan and sons, Harold and Edward.

PYTHIAN SISTERS MEET THURSDAY

Thirty two members of the local temple Pythian Sisters met for their regular session Thursday evening in the lodge rooms.

The charter was draped at this meeting for C. M. Leist and a committee was appointed by the most excellent chief, Mrs. John Ward, to draw up resolutions of respect for the deceased member. The committee is comprised of Miss Alice Wilson, Mrs. George Valentine, Miss Nellie Bolender and Miss Laura Mantle.

Miss Virginia Marion, chairman, assisted by Miss Alma Groce, Miss Clara Lathouse, Miss Margaret Salter, Mrs. Ed Rausenberger, Mrs. W. E. Hilyard and Earl Pierce served tempting refreshments and the remainder of the evening was spent in sewing and cards.

FLY AGAIN

PORT COLUMBUS, COLUMBUS, APRIL 21—After a 12-hour

stay in Columbus, Colonel and Mrs. Charles A. Lindbergh took off from here at 10:50 a. m. today on the next leg of their transcontinental T. & W. A. inspection trip.

A crowd of several hundred watched America's most famous flying couple climb into their low-winged cabin monoplane, circle the field once and then head westward.

BIBLE CLASS MEETS THURSDAY EVENING

Mrs. C. O. Kerns, president, presided at the monthly meeting of the Shining Light Bible Class of the United Brethren church held Thursday evening at the community home. Mrs. Jennie Steele was in charge of the devotional service which was followed by a short business session.

A program on springtime and Easter was presented under the chairmanship of Mrs. Ed Millions. "There Shall Be Showers of Blessings" was the opening song followed by a paper, "Why Easter Does Not Always Fall On the Same Day of the Month" read by Mrs. Clyde White.

A reading, "What April Really Means" by Mrs. Agnes Accord preceded a piano solo by Miss Nellie Denman. Miss Denman's selection was "Spring Flowers." Mrs. Sally VanWinkle gave a reading, "Pa Helps Ma Select a New Easter Coat" and following a poem, "Little White Lily" by Mrs. John Neuding the concluding number "There is Sunshine in My Soul Today" was sung by the entire group.

A social hour was enjoyed and refreshments were served by Mrs. C. O. Kerns, Mrs. John Kerns, Mrs. Agnes Accord and Mrs. Durbin Allen.

GARDEN CLUB HAS INTERESTING SESSION

A large attendance of 52 was present at the first meeting of the Pickaway-co Garden club since its organization recently. The meeting was held Thursday evening at the home of the president, Mrs. Orion King, W. High-st., who presided at the session.

After a short business meeting, Leslie Pontius gave a delightful talk on ferns and wild flowers, mother nature's own garden. His talk was illustrated by specimens collected and mounted by himself.

Their destination, although not announced officially, was believed to be Indianapolis, and from there St. Louis.

The Lindberghs arrived here last night from Pittsburgh. They made the 150-mile hop in approximately one hour after having to turn back twice, once because water was found to be in the gasoline tank of the plane and the second time because no landing flares were found in the ship.

Robert Brehmer followed with a most instructive talk on perennials. Club members were urged to ask questions on both subjects. An interesting account was given by Mrs. Howard Jones of her recent visit to the flower show in Cincinnati.

During the business session several committees for the year were named including program committee, Leslie Pontius, Mrs. B. R. Bales; transportation, Link Mader, Mrs. Earl Lutz, Mrs. T. O. Gilliland; civic, Mrs. M. E. Noggle, Mrs. Howard Jones, Mrs. Carl Ritz; press, Mrs. Ewan Reichelderfer, Mrs. R. F. Lilly, Mrs. Emmitt Crist; exhibit, Robert Brehmer, Mrs. T. F. Jeffries, Mrs. John Boggs, Mrs. Harvey Sweyer, Mrs. Paul Cronley; exchange, Mrs. George Steele.

The club decided to accept the offer of the Monday club to hold its meetings in the Monday club rooms at the Memorial hall. The next session will be Thursday, May 11.

SEWING CLUB MEETS WITH MRS. HALL

Mrs. Anna Hall Watt-st., was hostess, Thursday afternoon, when she entertained the members of her Sew and So club at her home.

An enjoyable afternoon was spent in sewing and the hosts served a delicious lunch at its close.

The next club meeting will be held at the home of Misses Anna and Estella Grimes, E. Mount-st.

PERSONALS

Mrs. Orion King, W. High-st., and guest, Miss Laura Smith of Groveport, visited Friday with Mrs. Mary Ann Hickman, of Reynoldsburg.

E. W. Chappin, of Harlowton, Montana, will leave for the East, Sunday, after spending the past week at the home of Mr. and Mrs. George W. Hartman, E. Franklin-st.

Mr. and Mrs. Milton Young and family, of Bremen, Ind., will arrive Saturday for a visit with Mr. and Mrs. George A. Young, E. High-st. Kenneth Young and Phyllis Weller, who have been visiting at the Young home in Indiana will return with them.

Mary Hays, N. Court-st., will spend the week-end with Harriett Stoke, Columbus.

Miss Laura Dunn, of Lexington, Ky., came Friday for a week-end visit with Mrs. Bruce Stevenson, N. Court-st.

Miss Ursula Chandler has returned to Virginia Intermont at Bristol, Va., after spending spring vacation with relatives in Columbus and her mother, Mrs. Anna Chandler, this city.

SEE ATOM BUNDLE OF ENERGY WAVES

Experiment Confirms Discovery of New Element.

New York.—Stunning proof that atoms, smallest particles of matter, are really packets of electrical waves, has been obtained by bursting aluminum metal atoms.

This feat has been achieved by Dr. M. A. Tuve and his colleagues, L. M. Hafstad and O. Dahl of the department of territorial magnetism, Carnegie institute, Washington, who received the \$1,000 prize of the American Association for the Advancement of Science in 1931.

Besides proving that matter is really bundles of energy waves, the present experimenters confirmed the existence of the newly discovered elements "neutron," or "neutron." Also, they converted lithium, boron and other atoms into helium.

These amazing transformations of matter from one simple condition into another were achieved by the use of the Van de Graaff type of electrical power producing machine, a marvelous American invention from which it is expected enormous electrical power can be obtained at a very small cost.

The report of the Carnegie institute scientists' work was made public in a lecture given by Doctor Tuve himself upon the subject of "Atomic Nucleus and High Voltage."

The Van de Graaff apparatus in this case consisted of an aluminum hollow sphere, in which a moving silk belt produced an electrical charge. When there are two such spheres, one charged positively, the other negatively, a lightning-like

Engaged

Betty C. Gerke, secretary to Governor Ralph of California, announced to Los Angeles that she will become the bride of Lee R. Lindley, president of a paper box company at Marion, Ind. The wedding will be in Chicago.

Passing this spark or dash discharge through vacuum tubes it was possible to smash up the metals under experiment.

Very fast protons or hydrogen nucleus particles were shot at the lithium and other atoms.

Aluminum similarly treated showed an amazing result. The waves of positive electrical particles or alpha particles penetrated into the nucleus of the aluminum atoms just as an outside water wave, if high enough, leaps across the wall and enters the waves of inside tank.

Shrubs grown for their winter twig effect should be pruned in the spring before growth starts. Remove all wood over a year old each spring.

GRAFT LEG NERVES TO CURE PARALYSIS

New York.—A highspeed method of grafting living human nerves from the leg to the face, enabling the victims of facial paralysis to recover from three to eight times more rapidly than under former treatments, has been announced by the Milbank Memorial fund.

The new method restores emotional expression as well as control of muscles. It has been developed by Dr. Arthur H. Ducl of this city and Sir Charles Ballance of London.

The experimenting was done with animals, but 17 human beings already have been operated on successfully by Doctor Ducl, and three of these in one month showed signs of returning nerve control previously not noted in less than three to eight months.

A sensory nerve is taken from the patient's leg and spliced in much the same way as a rope into the denuded section of the facial nerve. The leg loses some of its "feeling" temporarily.

To speed up the growth of the transplanted nerve in its new surroundings, it is treated in advance while still in the leg, much as seeds are treated in scientific methods of speeding up agricultural growth.

This advance treatment consists in severing the leg nerve and then leaving it still in the leg for two or three weeks, during which it rids itself of some of its own "detritus," or parts, a necessary preliminary to its further growth.

Then, when it is ready to start growing, it is placed in the face.

Doctor Ducl is senior aural surgeon, a vice president and chairman of the board of surgical directors of the Manhattan Eye, Ear and Throat hospital.

BILLIONS IN CALCIUM

SALT LAKE CITY, Utah.—Calcium deposits in Idaho, Utah and Wyoming are worth 12 billion dollars according to Oliver T. Baker, agricultural economist of the United States department of agriculture, who recently completed a survey of the West's calcium resources. Baker said that the West would provide calcium for fertilizer long after the sources in other sections are depleted.

Chicks multiply their size eight or 12 times during the first eight or 10 weeks of their lives. Therefore it is essential in good management to provide plenty of space.

Come over to the SUNNY SIDE OF LIFE

Do you want to feel always at your best? To meet each day with fresh vitality? You can. For when you're healthy, you're happy.

A delicious cereal provides the "bulk" that is so important in overcoming common constipation.

Tests show Kellogg's ALL-BRAN also supplies vitamin B to further aid regular habits. In addition, ALL-BRAN is twice as rich in iron as an equal weight of beef liver.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. What a relief to enjoy an appetizing cereal instead of taking patent medicines.

Serve as a cereal or use in cooking. Directions on the red-and-green package. Sold by all grocers. Made by Kellogg in Battle Creek.
